

Purchasing

The board of education shall authorize the district administrator to purchase and supervise the purchasing of all materials, goods, and supplies for the school system in accordance with state law and good purchasing practices.

Purchases with single items valued in excess of \$20,000 will require Board approval prior to issuing the purchase order. Purchases specifically approved through the budget process will not need full Board approval prior to purchase orders being issued.

An exception will be made for emergencies where safety, health, or financial disincentives will occur if the purchase must be made outside of the parameters. If an exception is warranted, the District Administrator will notify the Board.
